Biography

Ron Moor doesn't want to make any compromise. His work is both blurry and clear. His catchy and unifying melodies, his intimate and touching ballades characterize a universe located between the Nu-Gaze of the early 00's and the Alternative Rock of the 90s while maintaining a very modern electronic touch.

His music reminds us of bands like Biffy Clyro, Nine Inch Nails or My Vitriol by mixing powerful and heady electronic layers brilliantly.

After having self-produced his first album "STARSHINE" in 2013, Ron Moor is back with "YOUTH", a rawer and more personal album. Recorded and mixed by Jeff Ferrand at WoodBox Studio, Ron Moor alternates catchy riffs ('Perfect In Imperfections') and efficient melodies ('Red Lips', 'Safe And Sound'), while maintaining an asserted freedom, both in music and lyrics ('Land Of The Free').

Ron Moor's concerts are marked by an impressive sound power and captivating lights that arouse strong stage emotions.

Recent press

Rolling Stone : "Ron Moor is back with his own recipe made of crunchy guitars, heavy rythms, and overloaded arrangements but especially of poetry, solos and melodies to be whistled all day long. MUSE before becoming excessive, MEAT LOAF without the higher exaggerated piano. "... Darker than its predecessor, "Youth" is way more powerful. Stadiums soon?"

Hellfire : "Those who assert that today we do not know how to make Alternative Rock any longer have to disabuse in front of Ron Moor. And not only the nostalgic will love it."

RockU : "An instrumental boldness which while banishing any warmth will delight without reserve the rashest ears. "... Let us not hesitate to say it, "Youth" is a success. "... Concentrate on the music because it is really worth it."

Among The Living : "Youth is filled with variations, navigating between airy pop and muscular rock that can satisfy a rather wide public." ... "We can easily speak about a Ron Moor trademark."

United Rock Nation : "Served by an overwhelming production, Ron Moor made a Youth album that is resolutely an alternative rock coated by electro music opus, with a completely assumed easy-listening sensibility."
